

I would like to state my feelings RE: Xm radio regulations. I feel that it is free enterprize and if XM has gone out and provided a much needed service to their customers, they should have every right to continue its service without the goverments hands. XM has employed parental controls to stop any programs that might not be right for some poeple but also gives the PAYING customer the right to listen to what they want to listen. I tell everyone to get a XM radio. I feel it is worth its monthly cost. The NABS should have no say in what happens with the programming of Satelite radio. Dont forget, WE PAY for this service!!! Please reject NAB's petition 04-160 and let the american public contiune to get the programing that not only helps them but gives them something they want!!!\_(and pay for)
